Europe's The Fourth Largest International Agriculture And Livestock Exhibition

Orion Fair is the leading organization company in Turkish Agriculture and Livestock sector which proved its worldwide success in the field of International Agriculture Exhibitions since 1986. Thanks to the decent work done and the high quality service provided by Orion Fair, it got full marks from the participant companies and visitors from all around the world. In January 19-22, 2017; 1400 participant companies represented their brands and 245.876 people visited "Agroexpo" International Agriculture, Greenhouse and Livestock Exhibition from 52 countries. Besides, 21 different countries established important business connections by attending B2B meetings during the "6th Import&Export Days" event. As well as providing activities, such as arranging panels and seminars regarding various subjects and organizing agricultural machinery; Orion Fair provided a festival atmosphere for all sector participants together with livestock shows by choosing the most precious animals of Turkey through elections of Live animal beauty contests.
